

### **A Healthy Nursery Is a Happy Nursery**

To protect the health of all our children and caregivers, we cannot accept a child who has a cold, fever, diarrhea or other illness until symptoms are clear for at least 24 hours. We are always striving to make the nursery as healthy and safe as possible. Some ways we do this are by following Nursery Guidelines for diaper changes, toy cleaning, and laundry care. We know that a healthy nursery is a happy nursery for everyone involved!
